```csharp
using System;

class Program
{
    static void Main(string[] args)
    {
        try
        {
            Console.Write("Enter a number: ");
            int num = int.Parse(Console.ReadLine());

            if (num % 2 != 0)
            {
                throw new Exception("Number must be even.");
            }

            Console.WriteLine("The number is even.");
        }
        catch (Exception ex)
        {
            Console.WriteLine("Error: " + ex.Message);
        }
    }
}
```
